GREAT MINDS

Pitch your vision of the most exciting IT challenges

Win a 2019 Student Internship

The IBM Great Minds student internship competition provides you with the unique opportunity to work alongside world-class scientists in the leading industrial IT research organization.

The internships at IBM Research in Johannesburg, Nairobi or Zurich will last between three and six months and take place in 2019 upon mutual agreement.

To participate in the competition, you must be nominated by one of your professors or a dean.

You must submit a current CV and a short position paper, both in English, by 25 February 2019.

The program is open to all full-time students enrolled in a Master's program in Computer Science, Electrical Engineering, Physics, Software Engineering, Service Science, Artificial Intelligence, Applied Mathematics, Machine Learning, or Life Sciences at a recognized university or college in central and eastern Europe, the Middle East or Africa.

Participants must be fluent in both written and spoken English.

NEW! AI for Social Good

Today's wealth of data offers an unprecedented opportunity to change the world for the better. Two Great Minds 2019 projects are focused on addressing timely topics using artificial intelligence for social good.
