

MATEJ BEL UNIVERSITY

# CERTIFICATE

FACULTY OF NATURAL SCIENCES

WE HEREWITH CONFIRM THAT

*Dr. Ruifeng Zhang*

Hefei University of Technology (China)

VISITED OUR FACULTY (Department of Mathematics)  
IN THE TIME PERIOD OF 08 - 30 SEPTEMBER 2018.

**Programme of the Stay**

1. Working together with Prof. Ľubomír Snoha on the problem of possible sets of values of supremum topological sequence entropy on a given space, both for homeomorphisms and for actions of groups. An analogous problem of possible sets of values of topological entropy was discussed as well.
2. Invited lecture „On topological entropy and pressure of countable discrete amenable group actions“ was given at the scientific seminar on dynamical systems.

30 September 2018

doc. RNDr. Marek SKORŠEPA, PhD.  
Vice-Dean for International Cooperation
