

CURRICULUM VITAE

Personal Details

Name	Miroslav Haviar
Citizenship	Slovakia
Marital status	Married, 5 children

Education History

MSc in Mathematics	Faculty of Mathematics and Physics, Comenius University, Bratislava, Slovakia, 1988 (with Prize of Minister of Education of Slovakia)
PhD in Mathematics	Faculty of Mathematics and Physics, Comenius University, Bratislava, Slovakia, 1993
Doc (habilitation) in Mathematics	Faculty of Mathematics and Physics, Comenius University, Bratislava, Slovakia, 2002
Prof (inauguration) in Mathematics	Faculty of Mathematics and Physics, Comenius University, Bratislava, Slovakia, 2017

Employment History

1993 - 1995	Assistant Professor	Pedagogic Faculty, Matej Bel University, Banská Bystrica, Slovakia
1995 - 2002	Research Associate	Pedagogic Faculty, Matej Bel University, Banská Bystrica, Slovakia
2003 - 2007	Associate Professor	Pedagogic Faculty, Matej Bel University, Banská Bystrica, Slovakia
2008 - 2017	Associate Professor	Faculty of Natural Sciences, Matej Bel University, Banská Bystrica, Slovakia
2018 – present	Full Professor	Faculty of Natural Sciences, Matej Bel University, Banská Bystrica, Slovakia

Fellowships

1993 - 1994 (9 months)	Visiting Fellow	University of Oxford, UK
1998 - 2000 (24 months)	Postdoctoral Research Fellow	La Trobe University Melbourne, Australia
2004 (2 months)	Honorary Associate Fellow	Institute for Advanced Study Melbourne, Australia

Main research interests (MSC 2010)

- 03 Mathematical logic and foundations
- 05 Combinatorics (including Graph theory)
- 06 Order, lattices, ordered algebraic structures
- 08 General algebraic systems
- 11 Number theory
- 97 Mathematics education

Research experience.

My professional career comprises more than thirty three years of research in the fields of Algebra, Number theory and Mathematics Education. The main topics throughout my scientific career have been the study of lattices, lattice congruences and affine completeness of distributive lattice-based algebras [1]-[2], [4]-[7], [9]-[10], [12], [14]-[15], [17], [33], [36], [41], [53]-[54] (cf. the Publication list below), the study of finitely generated free algebras in the varieties of orthomodular lattices [13], [16], [20], [22], [51], the study of dualisability problems for algebras and their applications investigated jointly with B.A. Davey and H.A. Priestley [8], [11], [18], [19], [23], [42] at Oxford University and topics concerning full, strong and optimal dualities for algebras and related structures investigated jointly with prof. B.A. Davey and other members of his research group [21], [24]-[28], [30]-[31], [35], [43], [55] in Melbourne. I have also been working with M.J. Gouveia in Lisbon on transferral of entailment in duality theory [39], [40] and with H.A. Priestley (Oxford), B.A. Davey (Melbourne), M.J. Gouveia (Lisbon) and more recently with A.P.K. Craig (Oxford and then Johannesburg) on the study of canonical extensions of lattice-ordered algebras, piggyback dualities and Bohr compactifications of algebras [29], [32], [37]-[38], [45]-[46], [48]-[50], [56]. With B.A. Davey and A.P.K. Craig we have recently studied bilattices [52], [57]. My research interests also include Number theory where I coauthored [34] and Combinatorics and Graph theory where I coauthored [44] and recently coauthored [58]-[59].

Recently I coauthored two books. With my former PhD student Michal Ivaška we published a research monograph *Vertex labellings of simple graphs* (2015) and with my colleague Pavel Klenovčan a textbook *BASIC ALGEBRA for future teachers* (2016).

I have been a member of different research teams. My previous collaboration with the research group of Prof. Davey in Melbourne (mainly during the two-year postdoctoral stay commenced in October 1998) proved to be particularly fruitful. My research collaborators come from several countries (Australia, Portugal, Slovakia, South Africa, UK).

My professional career started in August 1989 at the Faculty of Mathematics and Physics of Comenius University in Bratislava, Slovakia. From January 1993 I took a position at Matej Bel University in Banská Bystrica, Slovakia, where I worked as an Assistant Professor until 1995 and a Research Associate until 2002. I was an Associate Professor there between 2003 and 2017 and from 2018 I have been working at Matej Bel University as a full professor of Mathematics. I spent the academic year 1993/94 as a Visiting Scholar at the University of Oxford and the two-year period Oct 1998 - Oct 2000 as a Postdoctoral Research Fellow at the La Trobe University in Melbourne.

Since 2008 I have become an Editor of *Algebra Universalis* which is the main journal in the field of Universal Algebra (the journal is now listed in the Current Contents database). Since 1990 I have given about 80 conference and seminar talks. These included invited plenary lectures at international conferences in Lisbon (2003), Nashville (2007), Oxford (2011), Melbourne (2013) and Bratislava (2018). They also included invited seminar talks in Oxford (1993), Glasgow (1994), Olomouc (1997, 2010, 2014, 2016, 2017), Melbourne (1999, 2003, 2005, 2006), Lisbon (2004, 2008, 2013, 2019) and Vienna (1994, 1996, 2008, 2013, 2017).

Awards, honours and scholarships

1. Prize of Minister of Education for outstanding study results, 1988
2. Soros/Foreign and Commonwealth Office Scholarship at University of Oxford, Oxford, UK, October 1993 - June 1994

3. Price of Rector of Matej Bel University for research, 1996
4. Postdoctoral Research Fellowship at La Trobe University, Melbourne, Australia, October 1998 - October 2000
5. Invited speaker at the conference Lattices, Universal Algebra and Applications, Lisbon, Portugal, May, 2003
6. Oxford Colleges Hospitality Scheme at University of Oxford and Somerville College, Oxford, UK, July - August, 2003
7. Honorary Associate Fellowship at IAS of La Trobe University, Melbourne, Australia, October 2004 - December 2004
8. Plenary speaker at the Conference on Order, Algebra and Logics, Nashville, USA, June, 2007
9. Silver medal of Matej Bel University for research and grants, September, 2009
10. Invited speaker at the Workshop on Duality Theory, Mathematical Institute, University of Oxford, UK, August, 2011
11. Plenary speaker at the conference General Algebra and Its Applications (GAIA 2013), Melbourne, Australia, July 2013.
12. Invited speaker at the conference Arbeitstagung Allgemeine Algebra 2018, Comenius University, Bratislava, Slovakia, February 2018.

Publications

Published papers in peer reviewed scholarly journals

Citations in monographs

There are 35 citations on my research papers in the monographs:

- (1) G. Grätzer, General Lattice Theory, 2nd edition, Birkhäuser Verlag, Basel/Boston-Berlin, 1998, ISBN 3-7643-5239-6 (Basel), ISBN 0-8176-5239-6 (Boston) - 13 citations.
- (2) K. Kaarli and A.F. Pixley, Polynomial Completeness in Algebraic Systems, Chapman and Hall/CRC, New York-Washington, D.C., 2000, ISBN 1-58488-203-4 - 9 citations.
- (3) A. Dvurečenskij and S. Pulmanová, New trends in Quantum Structures, Mathematics and Its Applications, Kluwer Academic Publishers, Dordrecht/Boston-London & Ister Science, Bratislava, 2000, ISBN 0-7923-6471-6 (Kluwer), ISBN 80-88683-23-8 (Ister) - 3 citations.
- (4) G. Grätzer, Lattice Theory: Foundation, Birkhäuser, Springer Basel AG 2011, ISBN 978-3-0348-0017-4 - 10 citations.

Conference communications and seminar talks

Since 1990 I have given about 80 conference and seminar talks, mostly abroad (the full list is available at <http://www.fpv.umb.sk/~mhaviar/Talks.htm>). This included invited plenary lectures at international conferences in Lisbon (2003), Nashville (2007), Oxford (2011), Melbourne (2013) and Bratislava (2018).

Other professional activities

- (1) Editor of the international journal Algebra Universalis (since the end of 2008).
- (2) Editor-in-Chief of the international mathematical journal Acta Universitatis Mathaei Belii, series Mathematics (since 2010).
- (3) Member of Working group for Mathematics and Statistics of Slovak Accreditation

Committee (2006 - 2019).

- (4) The Chair of the international conferences 40th, 45th, 50th and 55th Summer Schools on Algebra 2002, 2007, 2012 and 2017.
- (5) The co-organizer of the Summer Schools on Algebraic Graph Theory 2014 and 2015.
- (6) Organizer of Mathematical colloquium at M. Bel University (since Oct 2008 till April 2014).
- (7) Member of Committee for Mathematics of Slovak grant agency VEGA (since June 2016).
- (8) Reviewer for the Mathematical Reviews (since 1995).
- (9) Member of Jesus College Oxford Association - Old Members (since 1994).
- (10) Member of American, Australian and Slovakian Mathematical Societies.

Students' supervision

- (1) I supervised four PhD students who successfully defended their PhD theses (Daniela Guffová and Michal Ivaška in 2014, Alžbeta Brišová in 2016 and Andrea Sisáková in 2019).
- (2) Since 2006 I supervised 13 Bc. theses that were defended successfully under the study programs Teaching of academics subjects (preparation of future teachers of Mathematics) for lower and upper secondary education or the study program Mathematics. Currently I supervise one other Bc. thesis.
- (3) Since 2001 I supervised 10 MSc. theses that were defended successfully under the study program Teaching of academics subjects for lower and upper secondary education and in the study program Mathematics in analysis of data and in finances.
- (4) During 1995-2020 I supervised 42 final theses in the external study program Extended study of Mathematics for lower and upper secondary education or diploma theses in the internal 5-year study program Teaching of academics subjects for lower secondary education only.
- (5) Since 2006 I have supervised 8 ŠVOČ theses (students' scientific activity projects).

Experience in evaluation

- (1) In 2001-02 I was evaluating a part of the Field Trial for the OECD Programme for International Student Assessment (PISA) in the areas of Mathematics and Problem solving.
- (2) In 2005-06 I was serving as an evaluator of research and mobility proposals for the agency INTAS (in Brussels) to promote scientific co-operation of EU with the twelve New Independent States (NIS) to strengthen their research potential. I was serving as an expert in Brussels also during 2018 and 2019.
- (3) In 2003-06 I was a member of the European educational grant 112318-CP-1-2003-1-IT-COMENIUS-C21 titled LOSSTT-IN-MATH which, besides purely educational goals, aimed at pressing policy makers in Education to create better conditions for new Mathematics teachers due to partly shared curriculum in teacher training institutions throughout Europe.
- (4) Between 2006 – 2019 I was a member of the Working Group of the Accreditation Committee for Mathematics and Statistics as an Advisory Board of the Slovak government and I had been involved in the evaluation procedures to award accreditations for different study programmes (mostly in Mathematics and Mathematics education) at Slovak high education institutions.
- (5) In 2010 I was a proposal evaluator under the DESMI 2009-2010 programme co-funded by the Republic of Cyprus and the European Regional Development Fund.
- (6) Between 2002-2017 I was evaluating/examining five PhD and three MSc theses for La Trobe University in Melbourne and a PhD thesis for University of Tartu in Estonia.
- (7) Since 1994 I have been reviewing current published mathematical research for an American reviewing journal Mathematical Reviews - I prepared more than 110 reviews for it.
